INTERNATIONAL PRELIMINARY EXAMINATION REPORT

RECEIVED

0 6 SEP 2004

WIPO

PCT

(PCT Article 36 and Rule 70)

International application No. International filing date (day/month/year) Priority date (day/month/year)	Applicant s of agent s me reference	FOR FURTHER ACTION	See Notification of Transmittal of International						
PCT/US03/19783 23 June 2003 (23.06.2003) 24 June 2002 (24.06.2002) International Patent Classification (IPC) or national classification and IPC IPC(7): G08G 1/123 and US Cl.: 340/989626, 825.49, 992, 540, 541, 577 Applicant GOUNDER, MANICKAM A.			Preliminary Examination Report (Form PCT/IPEA/416)						
International Patent Classification (IPC) or national classification and IPC IPC(7): G08G 1/123 and US Cl.: 340/989626, 825.49, 992, 540, 541, 577 Applicant GOUNDER, MANICKAM A. 1. This international preliminary examination report has been prepared by this International Preliminary Bxamining Authority and is transmitted to the applicant according to Article 36. 2. This REPORT consists of a total of sheets, including this cover sheet. This report is also accompanied by ANNEXES, i.e., sheets of the description, claims and/or drawings which have been amended and are the basis for this report and/or sheets containing rectifications made before this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions under the PCT). These annexes consist of a total of sheets. 3. This report contains indications relating to the following items: I Basis of the report II Priority III Non-establishment of report with regard to novelty, inventive step and industrial applicability IV Lack of unity of invention V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement VI Certain documents cited VII Certain defects in the international application VIII Certain observations on the international application Date of submission of the demand 21 January 2004 (21.01.2004) Date of submission of the IPEA/US Mail Stop PCI. Atta: IPEA/US Authorized officer	International application No.	International filing date (day/mon	th/year) Priority date (day/month/year)						
Applicant GOUNDER, MANICKAM A. 1. This international preliminary examination report has been prepared by this International Preliminary Examining Authority and is transmitted to the applicant according to Article 36. 2. This REPORT consists of a total of sheets, including this cover sheet. This report is also accompanied by ANNEXES, i.e., sheets of the description, claims and/or drawings which have been amended and are the basis for this report and/or sheets containing rectifications made before this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions under the PCT). These annexes consist of a total of sheets. 3. This report contains indications relating to the following items: I Basis of the report II Priority III Non-establishment of report with regard to novelty, inventive step and industrial applicability IV Lack of unity of invention V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement VI Certain documents cited VII Certain defects in the international application VIII Certain observations on the international application Date of submission of the demand 21 January 2004 (21.01.2004) Name and mailing address of the IPEA/US Mall Step PCT, Atta: IPEA/US Authorized officer			24 June 2002 (24.06.2002)						
Applicant GOUNDER, MANICKAM A. 1. This international preliminary examination report has been prepared by this International Preliminary Examining Authority and is transmitted to the applicant according to Article 36. 2. This REPORT consists of a total of sheets, including this cover sheet. This report is also accompanied by ANNEXES, i.e., sheets of the description, claims and/or drawings which have been amended and are the basis for this report and/or sheets containing rectifications made before this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions under the PCT). These annexes consist of a total of sheets. 3. This report contains indications relating to the following items: I Basis of the report II Priority III Non-establishment of report with regard to novelty, inventive step and industrial applicability IV Lack of unity of invention V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement VI Certain defects in the international application VIII Certain observations on the international application Date of submission of the demand 21 Jamary 2004 (21.01.2004) Name and mailing address of the IPEA/US Mail Stop PCT. Atta: IPEA/US Authorized officer	International Patent Classification (IPC) or national classification and IPC								
Applicant GOUNDER, MANICKAM A. 1. This international preliminary examination report has been prepared by this International Preliminary Examining Authority and is transmitted to the applicant according to Article 36. 2. This REPORT consists of a total of sheets, including this cover sheet. This report is also accompanied by ANNEXES, i.e., sheets of the description, claims and/or drawings which have been amended and are the basis for this report and/or sheets containing rectifications made before this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions under the PCT). These annexes consist of a total of sheets. 3. INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.	
PCT/US03/19783	

I.	Bas	is of the report			
1.	With	regard to the elements of the international application:*			
	図	the international application as originally filed.			
	\boxtimes	the description:			
		pages 1-11 as originally filed			
		pages NONE, filed with the demand pages NONE, filed with the letter of			
	5 2				
	\triangle	the claims:			
		pages 12-15 , as originally filed			
		pages NONE, as amended (together with any statement) under Article 19 pages NONE, filed with the demand			
		pages NONE , filed with the letter of .			
	X	the drawings:			
	لاسكا	pages 1-10 , as originally filed			
		pages NONE , filed with the demand			
		pages NONE, filed with the letter of			
	\Box	the sequence listing part of the description:			
		pages NONE , as originally filed			
		pages NONE , filed with the demand			
		pages NONE, filed with the letter of			
2.	With	h regard to the language, all the elements marked above were available or furnished to this Authority in the			
	Thes	uage in which the international application was filed, unless otherwise indicated under this item. se elements were available or furnished to this Authority in the following language which is:			
		the language of a translation furnished for the purposes of international search (under Rule23.1(b)).			
	Ц	the language of publication of the international application (under Rule 48.3(b)).			
	Ш	the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3).			
3.	With inter	n regard to any nucleotide and/or amino acid sequence disclosed in the international application, the national preliminary examination was carried out on the basis of the sequence listing:			
		contained in the international application in printed form.			
		filed together with the international application in computer readable form.			
		furnished subsequently to this Authority in written form.			
		furnished subsequently to this Authority in computer readable form.			
		The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the			
		international application as filed has been furnished.			
		The statement that the information recorded in computer readable form is identical to the written sequence listing			
		has been furnished.			
4.	\bowtie	The amendments have resulted in the cancellation of:			
		the description, pages NONE			
		the claims, Nos. NONE			
		the drawings, sheets/fig NONE			
5.		This report has been established as if (some of) the amendments had not been made, since they have been considered to go			
		beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**			
* Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to i					
**	repo Any r	rt as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17). eplacement sheet containing such amendments must be referred to under item 1 and annexed to this report.

INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No. PCT/US03/19783

v.	. Reasoned statement under Rule 66.2(a)(ii) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement					
1.	STATEMENT					
	Novelty (N)	Claims	1-24	YES		
		Claims	NONE	NO		
	Inventive Step (IS)	Claims	1-24	YES		
	•	Claims	NONE	NO		
	Industrial Applicability (IA)	Claims	1-24	YES		
		Claims	NONE	NO		

2. CITATIONS AND EXPLANATIONS

Claims 1-24 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest a computerized system for tracking and controlling a locking device for a transportable container comprising a processing unit disposed within the container receiving real time geographical information from a global positioning system and a communication module to transmit a geographic information and the central data processing unit including a communication module for receiving and record geographical information from the communication module of the container, means for inputting geographical information of a final destination for the transportable container in the processing unit including means for comparing the real time geographical information of the container to the final destination geographical information for the container, and a signaling means connected to the processing unit to activate the container locking device to be unlocked when the container reaches its final destination.

Claims 1-24 meet the criteria set out in PCT Article 33(4), and thus have industrial applicability because the subject matter claimed can be made or used in industry.

Form PCT/IPEA/409 (Box V) (July 1998)
